ANTI-VIRUS

Why Our Clients Choose our Managed Anti-Virus Solution

Stand-alone Anti-Virus Software:

- Provides a point solution to specific issues
- Requires manual monitoring and maintenance to remain current and effective
- Relies on end-user decisions for operation
- Does not provide consistent version control across desktops
- Does not provide centralized management

Managed Anti-Virus:

- Provides proactive and comprehensive security, monitoring and management
- Centralizes the deployment and updating of software to ensure coverage and consistency
- Automates management processes to avoid errors and reduce costs
- Leverages expert IT skills

Keeping your business protected requires more than just off the shelf software.

Our Managed Anti-virus solution delivers enterprise-class protection, and is maintained 24/7 by our Network Operations Center, keeping your business secure while saving you money.
